

Job Description

The Electro Automation Group is widely regarded as Ireland's premier automation specialist. Formed in Dublin in 1984, The Electro Automation Group has since provided an enviable combination of quality equipment supported by exceptional technical after sales service.

The Electro Automation Group have branches in Lisburn, Dublin, Surrey, Birmingham and Germany and are leaders in the supply, installation and maintenance of automation systems for industrial and residential solutions. Due to continued growth we currently have a number of vacancies which we urgently require to be filled. **Based locally in Lisburn, we require a FIELD SERVICE ENGINEER.**

The successful candidate(s) will join our busy team of professional support staff and must be customer focused, driving service success that improves customer satisfaction, maximises customer retention and increases profitability.

- You will provide service and customer support during scheduled and unscheduled service visits to our numerous clients.
- You must have a full clean driving license (or a maximum 3 points) and ideally from a qualified electrical background.
- Full training will be given on our wide and varied range of automation systems for car parks, doors, access controls and gates.
- Fully expensed company van (available for personal use subject to conditions), company mobile phone, auto enrolment pension, monthly performance bonus and overtime are just some of the benefits available (Apprentices eligible following apprenticeship).
- A private health scheme is also available after a six month probationary period.
- An attractive industry leading remuneration package is available for suitable applicants.

Electro offers a stable, rewarding career path within a friendly workplace. Why not join us?
